

# AniVox<sup>®</sup> EAR WASH

## AniVox<sup>®</sup> Ear Wash for Dogs

**AniVox<sup>®</sup> Ear Wash** is suitable for both temporary and regular use in cases of acute and chronic otitis in dogs. AniVox<sup>®</sup> Ear Wash effectively dissolves ear wax and cleanses irritated, itchy and secreting ear channels of dog. The solution contains components extracted from the resin of Finnish spruce that has been proven to be effective against most common causes of dogs' ear problems, such as bacteria from the *Staphylococcus* species and the *Malassezia* yeasts. Using AniVox<sup>®</sup> Ear Wash is proved to be safe even if the ear drum would have been perforated

### Active substances:

Refined resin of Norway spruce, and a solution of glycerol 25% and water.

### INCI:

Aqua, Propylene glycol, Glycerin, Norway spruce (*Picea abies*) resin, Capryloyl glycine, Polysorbate 20, Sodium chloride, Potassium sorbate, Allantoin.

### Treatment areas:

Treatment and prevention of bacteria (e.g. *Staphylococcus aureus*) and fungi (e.g. *Malassezia pachydermatis*) causing ear problems in dogs. The product is suitable for both temporary, as well as regular use.

### Instructions for use ([www.repolar.com](http://www.repolar.com)):

1. Lift up the dog's pinna.
2. Place the spout of the ear wash liquid bottle to the opening of the ear canal and fill the ear canal with the solution.
3. Hold the dog's pinna up and rub the outer ear channel gently for a couple of minutes. This way the solution will rinse, dissolve and release ear wax from the ear channel.
4. Allow your dog to shake its head. This way the released ear wax and excess liquid will drip out from the ear channel
5. Wipe the opening of the ear channel and the pinna after treatment with a clean cottonwool, a piece of paper or a gauze.

12M = 12 months shelf-life after opening.

### Storage / shelf-life:

One year after opening and at least five years when unopened. The expiry date is printed in the bottle.

### Interactions:

No significant clinical interactions are known.

### Potential contraindications:

The solution contains substances that may cause allergic skin reaction in dogs with resin-sensitivity. If you suspect that the use of AniVox<sup>®</sup> Ear Wash is causing a skin irritation or sensitising the dog's skin, the use of AniVox<sup>®</sup> must be discontinued and other therapy should be instituted. No other contraindications or interactions are known.

### Safety issues ([www.repolar.com](http://www.repolar.com)):

Using AniVox<sup>®</sup> Ear Wash is tested and proved to be safe. The solution has not been found to have any ototoxic properties, and it will not damage the sensitive middle or inner ear or weaken the dog's hearing even if the ear drum would have been punctured or perforated due to an infection or some other reason.
