

Frequently Asked Questions on AniVox®

Q: What is AniVox® Ear Wash?

A: AniVox is a modern ear wash for animals. It is an efficient wash for cleansing of ear wax, dirt, and inflammatory exudate from the ears of your pet. It contains active components from Norway Spruce (*Picea abies*) resin, extracted with a patented method as well as allantoin for additional soothing property.

Q: For what I can use AniVox Ear Wash?

A: AniVox is used both in home care and by professionals for cleansing of animals' ears. The product is suitable for both temporary, as well as regular use, also during medicinal treatments. Use the product 1-2 times a day as needed. AniVox does not contain alcohols, acids, fragrances or colourants and it does not sting or prickle even on irritated ear canal.

Q: Can AniVox be used for other animals than dogs?

A: Yes, it can be used for all animals suffering from ear problems.

Q: Is AniVox antimicrobial?

A: Yes. The solution contains components extracted from the resin of Norway Spruce that has been proven to be effective against most common causes of dogs' ear problems, such as Staphylococci bacteria and the Malassezia yeasts.

Q: Is AniVox safe to use at home?

A: Using AniVox Ear Wash is safe even if the ear drum is perforated according to an ototoxicity study done with guinea pigs.
